

Novo BioClean SRT

Enhanced Soil Release Technology

Novo BioClean SRT combines new patent-pending cleaning technology with promicrobial action to enhance cleaning efficacy and provide long-lasting odor control. This advanced formulation provides superior cleaning performance with the comfort and safety of green technology. *Novo BioClean SRT* is designed as a carpet stain remover and can be used on most fabric surfaces including upholstery, draperies, and car seats.

Common stains, spills, and pet accidents leave organic deposits and odors in carpet and fabric and can be difficult to remove. Cleaning with conventional chemical products often leaves stains imbedded in the carpet. As cleaned carpet is left to dry, subsurface stains can gradually wick up into

Novo BioClean SRT provides cleaning power to remove imbedded soils and organics with a single application

the carpet fibers making the carpet appear dirtier than when it was initially cleaned. Mold, encouraged by moist

environments, can grow on residual organics in the carpet pile, backing, and pad, giving a musty odor. Stained, musty carpet gives the impression of a generally unclean environment creating a negative experience for clients and visitors. Lingering stains and odors undermine customer confidence in overall cleanliness.

Novo BioClean SRT provides dual cleaning power to remove most stains with a single application. First, the novel surfactant system quickly releases the stain into the cleaning solution so it can be readily removed. This unique formulation meets the criteria for Novozymes' *greensmart*[™] program and provides superior stain removal compared to conventional chemical products. The *greensmart*[™] designation is used for formulations that utilize biodegradable surfactants at a neutral pH, contain no phosphates, no solvents, and low concentrations of volatile organic compounds (VOC).

Benefits

- Eliminates stains and odors contributing to a freshness that welcomes guests and instills confidence in overall cleanliness
- Provides superior spot removal from carpet and fabric with the additional benefit of odor control
- Maintains longer-lasting odor control by eliminating the source of malodors
- Designed for use on carpet, drapes, upholstery, automotive seats, and other fabrics
- Cleans effectively without encouraging resoiling

Features

- Contains dual action patent-pending chemistry and a patent-pending blend of promicrobials selected for high rates of degradation of organic soils
- Meets *greensmart*[™] criteria for green technology
- Safe for users and the environment
- Safer for guests than most standard chemical cleaners
- Easy-to-use formulation
- Fragrance free
- Stable formulation with shelf life of two years

In addition to the initial cleaning action, promicrobials penetrate deep into the carpet pile, backing, pad, and subsurfaces where they are activated by residual organics. These unique promicrobials have the ability to breakdown a wide range of organic soils making the area cleaner and less prone to mold and mildew odors. Furthermore, promicrobials continue to clean the carpet as long as organics and moisture remain. As promicrobials become established in carpet, they degrade organics favored by undesirable mold and mildew, control odors, and keep carpet fresh.

Novo BioClean SRT provides superior stain removal efficacy with patent-pending technology and offers the residual benefits of deeper cleaning and odor control through the use of promicrobials.

Product Characteristics

Bacteria Count	5.4 x 10 ⁷ cfu/ml
Bacteria Type	Blend of <i>Bacillus</i> spores
Salmonella	Not detected
Appearance	Tan-color liquid
Fragrance	No fragrance added
pH	6.0 - 7.5
Shelf-life	2.0 years, maximum loss of 1.0 log at recommended storage conditions

Recommended Use Directions

Test carpet or fabric for colorfastness in an area that does not show. Remove excess solids or liquid. Saturate the stain with *Novo BioClean SRT* and allow to sit for 2 - 3 minutes. Blot with a clean, absorbent cloth. For more difficult stains scrub gently with a brush. Repeat as necessary.

Available Packaging

- 12 x1-quarts
- 5-gallon pails
- 55-gallon drums

Product Code: 7002607

Storage and Handling

Store in a cool dry place. Wash hands thoroughly with warm, soapy water after contact. Avoid eye and skin contact.
